

Grampians Watch – What did we learn?

Prepared by Jade Odgers, Manager Clinical Innovation and Development, Grampians Health

What went well

- Collaboration
- Adaption
- Flexibility
- Compatibility
- Local people

A long wooden trestle bridge spans across a river. The bridge is constructed from numerous vertical wooden posts and horizontal beams, with diagonal bracing for stability. The water is calm, reflecting the sky and the bridge's structure. The background is filled with lush green trees under a clear blue sky. The overall scene is peaceful and scenic.

What went not so 'good'

- Funding
- Regional Differences
- Integration
- Workforce
- IT Support

'It takes a village'

Grampians Watch, Team Leader: Pheona Griffith

Clinical Innovation and Development, Project Lead:
Karen Higgins

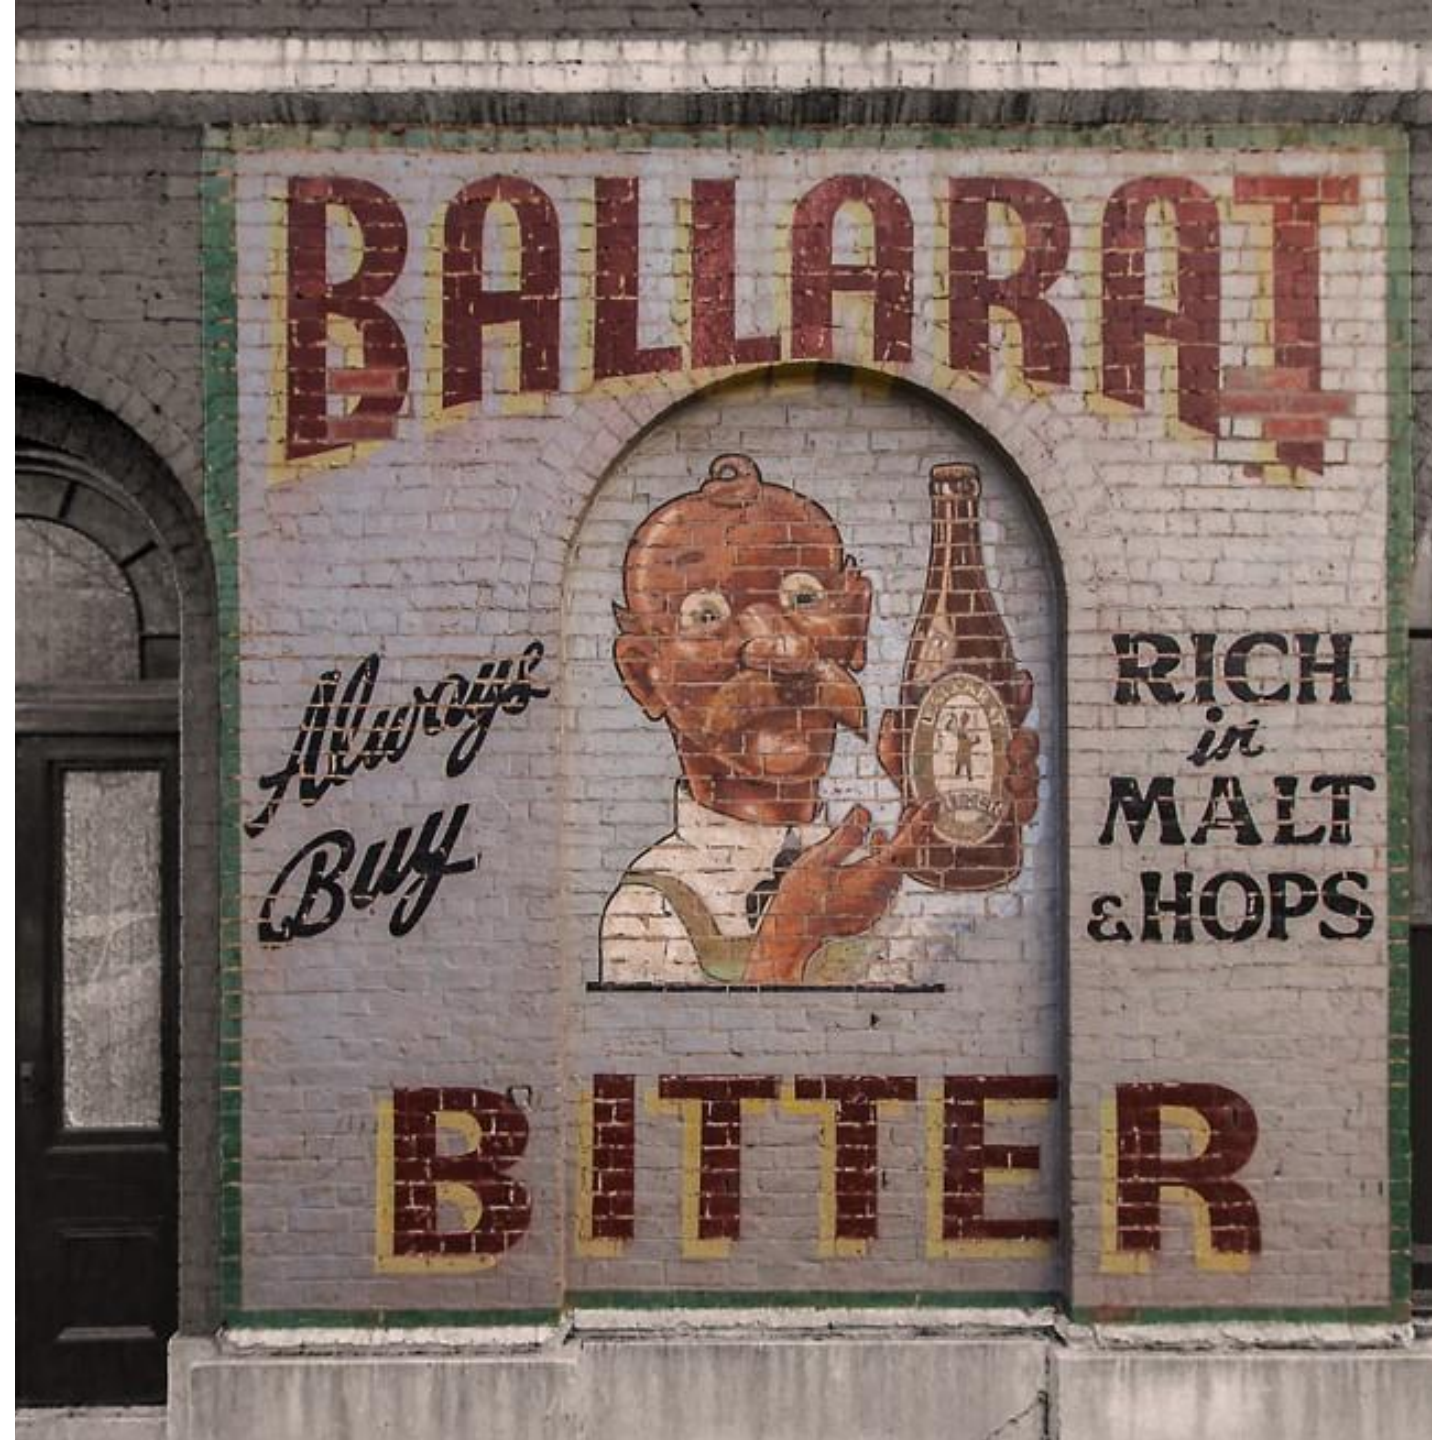

Deakin Rural Health, Research Fellow & PhD
Candidate: Mary Malakellis

Deakin Rural Health, Deputy Director:
Kevin McNamara

Deakin Rural Health & Grampian Health,
Associate Professor Allied Health: Anna Wong Shee

East Grampians Health Service, Healthy@Home

The many staff from across Nursing, Medical and
Allied Health from Grampians Health
