

Clinical Confidence Survey

Dr Sammy Russell
Darlene Cole

Background and Aim

- Framework developed by Department of Health (2023)
- Response to Royal Commission
- Goals:
 - - Workforce with the right capabilities, size and diversity.
 - - Support and develop skilled, competent and confident mental health workforce.

We aim to develop a survey to capture clinicians confidence relating to each of the 15 capabilities, to inform the education calendar for 2025.

Clinical Confidence Survey Questions

1. Work with the Mental Health & Wellbeing Act 2022
2. Work with all other relevant legislation (i.e Disability Act 2006; Children, Youth and Families Act 2005; Guardianship and Administration Act 2019)
3. Work with Aboriginal and Torres Strait Islander consumers, families, their supporters, and communities
4. Work with diverse consumers, families, and communities
5. Understand trauma and be able to use an approach that is trauma informed
6. Understand and respond to mental health crisis
7. Understand and respond to suicidality
8. Recognise and respond to consumers with co-occurring substance use and addiction
9. Recognise and respond to consumers and families at risk of, or experiencing, family violence
10. Work with families and carers
11. Provide holistic assessment
12. Demonstrate care that is delivered with empathy and compassion
13. Understand and help people navigate the broader mental health and wellbeing system
14. Support people with appropriate connections and linkages with external systems for their ongoing care
15. Engage in clinical supervision and reflective practice
16. Provide current evidence-informed support, therapies and treatment
17. Within your professional scope, provide support related to medication
18. Work effectively with digital technologies

Methods

3 Pilot surveys

Feedback from each pilot

- Legislation question change
- Medication scope
- Age stream
- Survey formatted

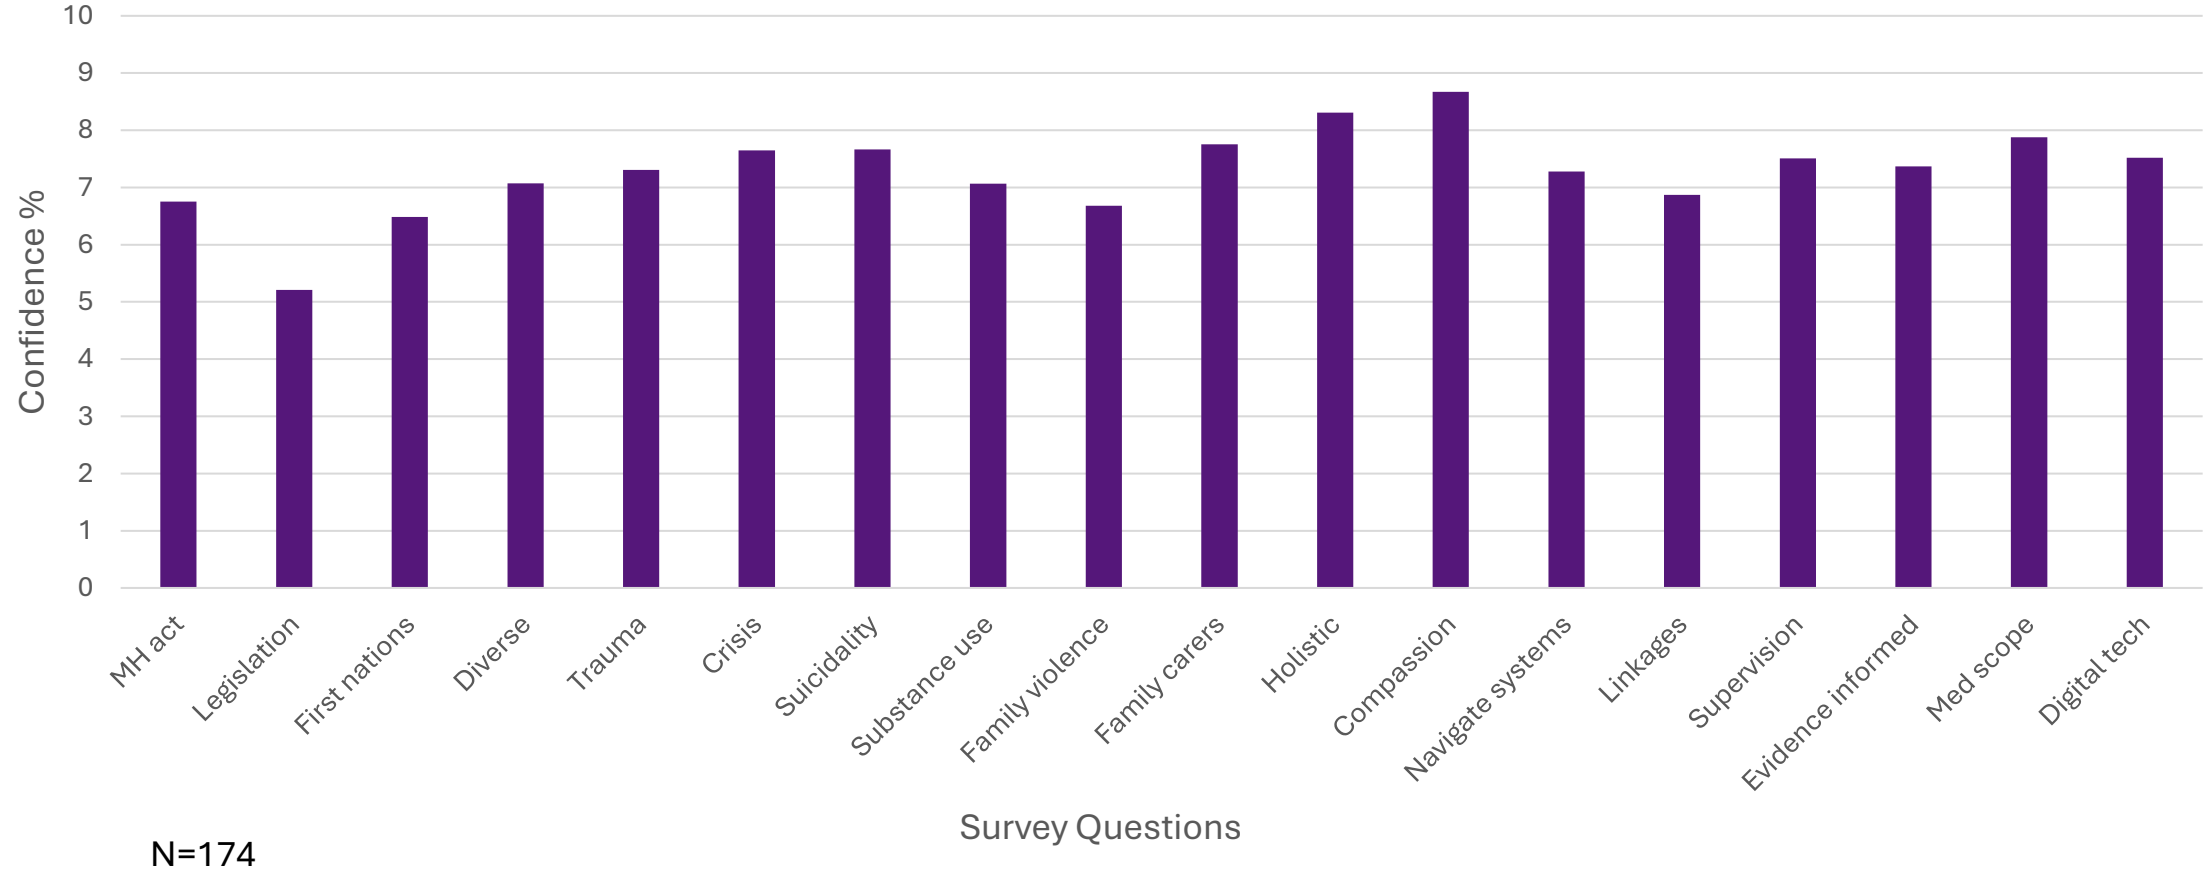

Participant recruitment

- Regular team meetings
- Email invitations
- Clinical nurse educator encouragement

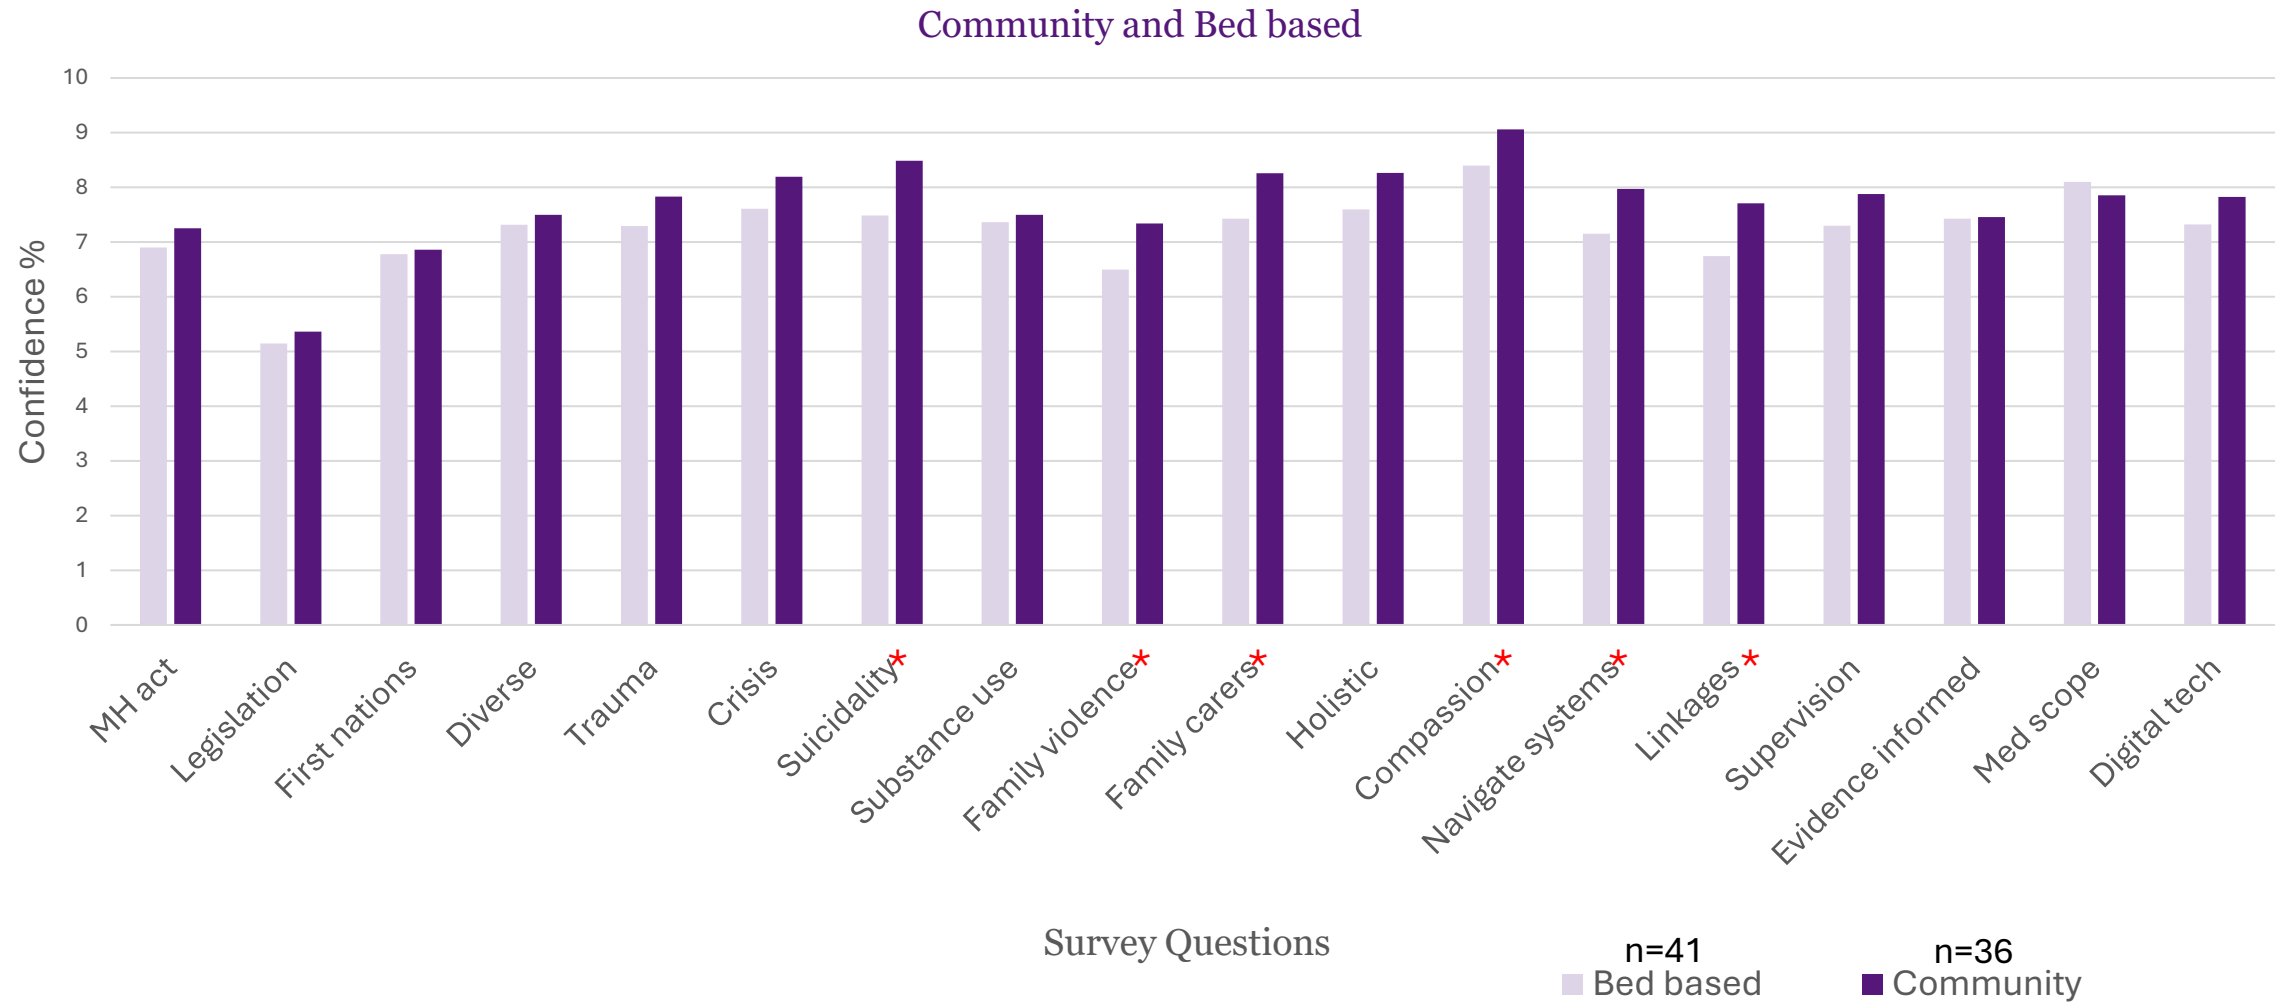

Results

- All survey results

Clinical Confidence Survey Results

Comparison results

* $p < 0.05$

Next steps

- Apply for ethics
- Repeat survey yearly

Thank you
